

CAPABILITY STATEMENT

Reinforcing Tomorrow's Future

Company Overview

ATEX Supplies is a family-operated business with over three decades of experience in residential, commercial, and civil construction & supplies. Our direct partnerships with leading Australian suppliers allow us to deliver high-quality, compliant products at competitive prices. Our dedicated team provides tailored guidance and seamless supply chain solutions, ensuring your project is delivered with precision and integrity.

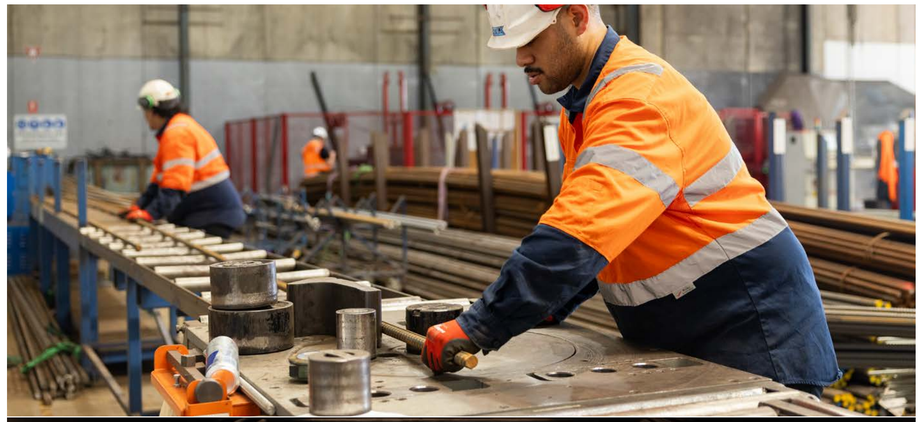

Executive Summary

ATEX Supplies is a leading Australian-owned supplier of premium, Australian Standard-compliant steel reinforcement products, trusted by leading construction companies Australia wide. With over 30 years of proven expertise, a fully in-house team, and a commitment to quality services, we deliver reliable, innovative, and timely reinforcement solutions for projects of any scale.

Why Choose ATEX Supplies?

- **100% Australian Standard-compliant steel and mesh**
- **Single point of contact** throughout every project
- **In-house project scheduling**—never offshored
- **Rapid, reliable delivery** with our own transport fleet
- **Personalised service, attention to detail, and a genuine approach**
- **Proven track record** on complex, high-profile sites

Mission Statement

Our mission is to be Australia's leading and most trusted supplier in the steel reinforcement industry. We set the benchmark for excellence through:

- **Client-Centric Service:** Prioritising client objectives and exceeding expectations.
- **Quality Assurance:** Rigorous controls and compliance with the highest standards.
- **Technical Expertise:** Decades of experience and innovation in every project.

Vision

To be the partner of choice for high-value, large-scale construction projects by:

- Delivering bespoke solutions aligned with client goals and programs.
- Providing cost-effective, compliant, high-quality products.
- Continuously improving through industry innovation.
- Building responsive and long-term client relationships

Core Values

- **Quality:** Ensuring the highest standards in products and services delivered to clients.
- **Honesty:** Maintaining transparent and truthful communication in all interactions.
- **Respect:** Upholding respect for clients, partners, and team members in every aspect of the business.
- **Efficiency:** Striving for optimal performance and timely delivery in all projects.
- **Transparency:** Promoting open and clear communication to build trust and strong relationships.

We believe in honest, open communication and set the highest expectations for service, training our people to deliver the ATEX standard every time. Integrity, accountability, and teamwork guide every decision we make, ensuring lasting partnerships built on trust, safety, and consistent quality across all our operations.

Capabilities

Our capabilities encompass the supply and logistical management of reinforcement solutions for complex, large-scale projects. We provide end-to-end support—from material sourcing, processing, and scheduling to on-site delivery coordination—ensuring efficiency, accuracy, and compliance at every stage.
Our experience in managing multi-site operations and time-critical deliveries allows ATEX Supplies to support contractors, engineers, and project managers in achieving seamless construction outcomes without compromise on quality or safety, including but not limited to:

MORE DETAILS ↓

Project One

Chapman Gardens

Client: N.I.C Constructions

Scope: Complete reinforcement supply for a complex, year-long build.

Outcome: Successfully managed the site's unique structural challenges, receiving client praise for efficiency, quality, and attention to detail. The experience has positioned ATEX to confidently deliver similar high-profile projects in the future.

ATEX SUPPLIES

Chapman Gardens

Project Two

Horizon

Client: Masscon

Scope: Reinforcement supply for a 19-level high-rise apartment, totaling 198 units.

Outcome: Achieved a 7-day turnaround per level, consistently meeting delivery dates through careful logistic sequencing and managing tight site access. Maintained constant communication with site and schedulers, ensuring ATEX Supplies met all program deadlines.

ATEX SUPPLIES

HORIZON
HURSTVILLE

Project Three

Viaducts Capital

Client: CPB Contractors

Scope: Supplied pier capitals for light rail construction at Badgerys Creek (Western Sydney Airport).

Outcome: Delivered over 2,000 tonnes of 24-40mm reo bar, processed to exacting high-tolerance shapes for complex onsite conventional work. Successfully met strict delivery programs, supporting critical project milestones.

Project Four

The Dover

Client: Attena Group

Scope: Reinforcement supply for a four-level luxury residential home, featuring a unique and variable design.

Outcome: Supplied 200 tonnes of material for a full concrete structure. Overcame logistical challenges posed by tight street access and cul-de-sac location, ensuring timely and efficient delivery.

ATEX SUPPLIES

Project Five

Stage 3 & 4 at Al-Faisal College

Client: Rohrig Constructions

Scope: Reinforcement supply for a multi-dwelling school complex upgrade.

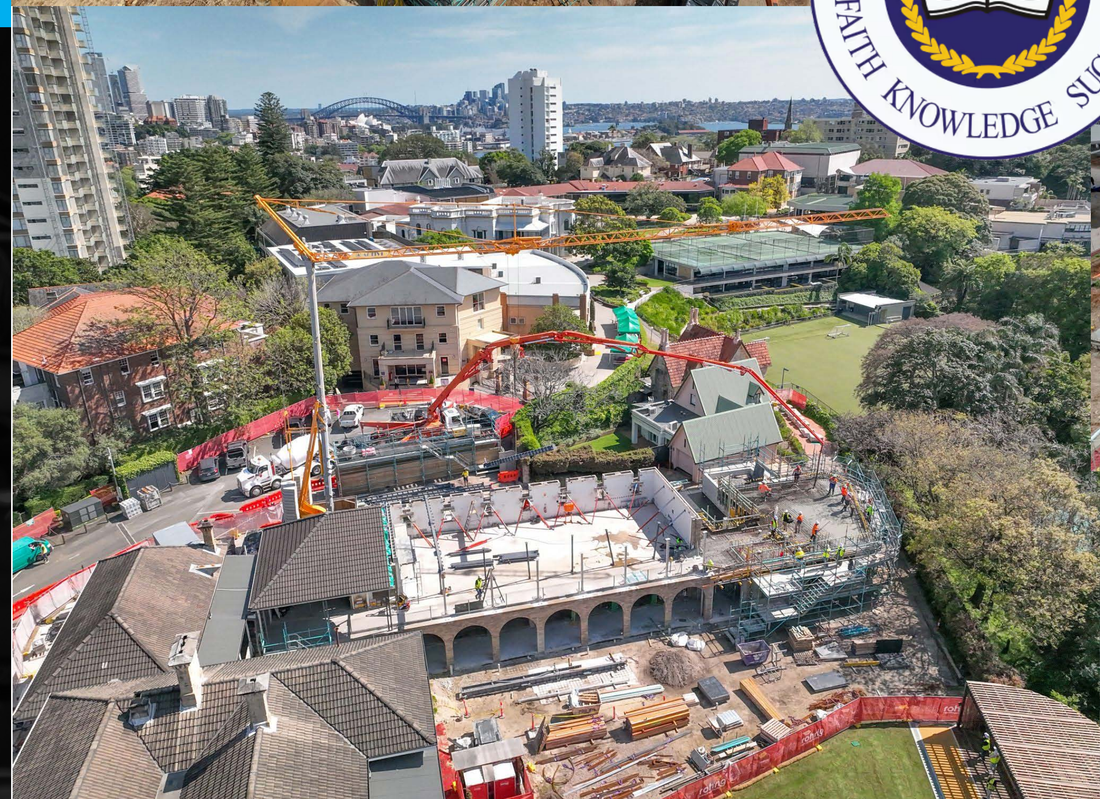

Outcome: Adapted project schedules to align with school operations, including pour breaks and expansion joint systems. Maintained quality and communication through regular site visits, ensuring smooth project delivery.

Testimonials

ATTENA GROUP
DESIGN & BUILD

AX have been involved with a lot of our suppliers, a lot of the reinforcement steel, waterproofing products, self leveller.

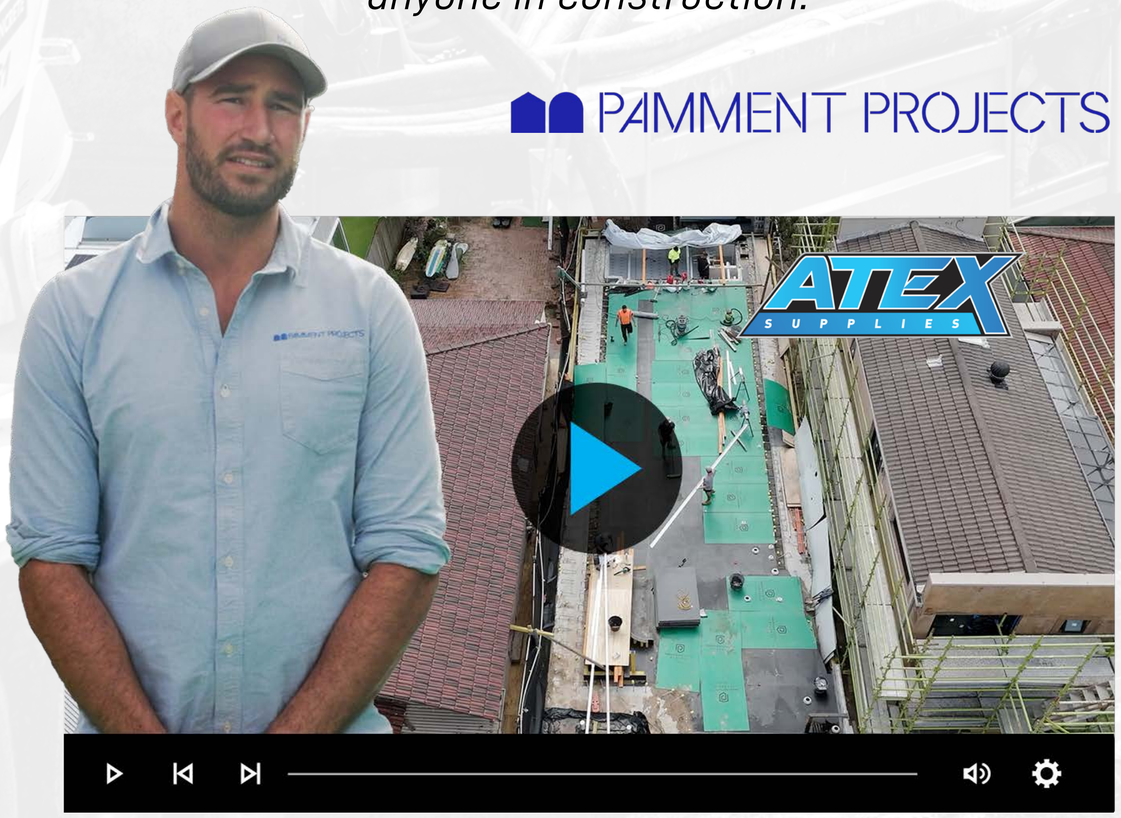

The big difference for us is the service. ATEX has made it easy for us in that service and the ongoing phone calls and follow ups, making sure that we're happy with what they supplied.

Testimonials

Reliable, responsive, and easy to work with—just normal, nice people doing a great job. I'd highly recommend Atex to anyone in construction.

PAMMENT PROJECTS

Anyone that asks me "Where do you get your steel from?" Straight away- "make sure you use ATEX" because it's just like I said, it's just they make it very easy, very simple and they're reliable.

ZEAITCORP
DESIGN AND CONSTRUCTION

Testimonials | MASSCON DESIGN CONSTRUCT DELIVER.

ATEX has been involved from the design stage all the way through to currently now. They've been amazing.
The delivery time's been unbelievable. I've never seen this before.

John *(Site Manager)*

Collaborating with ATEX on this project so far, especially their assistance with our transfer slab, has been nothing but a success.
From a design perspective, their response has been a value to the design and to the works on site.

Fortunenata *(Design Manager)*

Testimonials

This is the first time I've ever used ATEX. ATEX has helped us keep on track with our program.
It's definitely been a real good experience. Definitely, 100% would use ATEX again.

Mahela Athauda
(Site Engineer)

MENAI CIVIL CONTRACTORS

ATEX Supplies has been a major part of the project. They are really good with their support and their prompt deliveries. We're hoping to build a long-term relationship with these guys.
